Section IV

State Administration

Section 608(a) of the IDEA requires each State that receives funds under this title to:

- (1) ensure that any State rules, regulations, and policies relating to this title conform to the purposes of this title;
- (2) identify in writing to local educational agencies located in the State and the Secretary any such rule, regulation, or policy as a State-imposed requirement that is not required by this title and Federal regulations; and
- (3) minimize the number of rules, regulations, and policies to which the local educational agencies and schools located in the State are subject under this title.

States must attach to this application a list identifying any rule, regulation, or policy that is State-imposed (not required by IDEA or Federal regulations). If there are no such State-imposed rules, regulations, or policies, please so indicate. In addition, the State is required to inform local education agencies in writing of such State-imposed rules, regulation or policy. (20 U.S.C. 1407(a); 34 CFR §300.199)

State statutes, administrative rules and policies for special education are only adopted when it is determined that more clarity is needed than provided by the federal regulation; federal regulation requires the state to adopt procedures to implement the Act and/or a rule was required to ensure the rights of a child.

Following is a list of the state administrative rules which have been identified as imposing some additional requirements on LEAs which are not specifically addressed in current final federal regulation under IDEA 2004. Following each of the rules is a comment as to why the rule was adopted and its implications for LEAs.

10.16.3320 REFERRAL REQUEST FOR INITIAL EVALUATION (1) In accordance with 34 CFR 300.301(b) either a parent or a public agency, as defined in 34 CFR 300.33, may initiate a request for an initial evaluation.

(2) A local educational agency shall establish a referral process procedures for requesting an initial evaluation which includes a methods for collecting information to determine whether comprehensive educational evaluation is necessary and the types of evaluations warranted.

(a) The referral request for initial evaluation must include a statement of the reasons for referral the request, including documentation of general education interventions for students enrolled in school, and the signature of the person making the referral request.

(b) Referral The request shall document the suspicion that the student may have a disability which adversely affects the student's educational performance to the degree which requires special education and related services.

(c) If an comprehensive educational evaluation in accordance with 34 CFR 300.534 301 through 300.536 311 is warranted, the local educational agency shall obtain consent of the parent before conducting an comprehensive educational evaluation.

(2) If, after receiving a referral, a child study team determines that a comprehensive evaluation is not necessary, the local educational agency shall notify the parent in writing of its decision, including a description of any options the local educational agency considered and the reasons why those options were rejected and a full explanation of all of the procedural safeguards available under 34 CFR 300.500 through 300.529.

(3) If the local educational agency does not suspect that the child has a disability and denies the request for an initial evaluation, the local educational agency must provide written notice to the parents, consistent with 34 CFR 300.503(b) of the Individuals with Disabilities Education Act. The parent may challenge such a refusal by requesting a due process hearing.

Comment: This rule requires documentation of the request for initial evaluation and identifies the standards for documenting why there is reason to suspect the presence of a disability. The documentation required by this administrative rule is considered to be essential when planning

the evaluation to ensure consistency with IDEA 2004 requirements that the child is assessed in all areas of suspected disability.

10.16.3346 AVERSIVE TREATMENT PROCEDURES

(1) Positive behavioral interventions based on the results of a functional behavioral assessment shall serve as the foundation for any program utilizing aversive procedures to address the behavioral needs of students. Aversive treatment procedures may be appropriate for an individual student who exhibits behaviors which pose a risk of physical harm to the student or others, or a risk of significant damage to property, or significantly disruptive or dangerous behaviors which cannot be modified solely through the use of positive behavioral interventions. Aversive treatment procedures must be designed to address the behavioral needs of an individual student, be approved by the IEP team, and may not be used as punishment, for the convenience of staff, or as a substitute for positive behavioral interventions.(2)Aversive treatment procedures are defined as:

(a) physical restraint, other than as provided in 20-4-302, MCA, when the IEP team has determined that the frequency, intensity or duration of the restraint warrants an aversive treatment procedure; and

(b) isolation time-out which results in the removal of a student to an isolation room under the following conditions:

- (i) the student is alone in the isolation room during the period of isolation;
- (ii) the student is prevented from exiting the isolation room during the period of isolation;
- (iii) the door to the isolation room remains closed during the period of isolation; and
- (iv) the student is prohibited from participating in activities occurring outside the isolation room and from interacting with other students during the period of isolation.

(3) Any student in isolation timeout must be under the direct constant visual observation of a designated staff person throughout the entire period of isolation.

(4) The following procedures are prohibited:

- (a) any procedure solely intended to cause physical pain;
- (b) isolation in a locked room or mechanical restraint, except in residential treatment facilities and psychiatric hospitals as defined in 20-7-436, MCA, when prescribed by a physician as part of a treatment plan and when implemented in compliance with relevant federal and state law;

(c) the withholding of a meal for a period of greater than one hour from its scheduled starting time;

(d) aversive mists, noxious odors, and unpleasant tastes applied by spray or other means to cause an aversive physical sensation; and

(e) mechanical restraint that physically restricts a student's movement through the use upon the student of any mechanical or restrictive device which is not intended for medical reasons.

(5) Exclusion time-out is not considered an aversive treatment procedure. Exclusion time-out is defined as any removal of a student from a regularly scheduled activity for disciplinary purposes that does not result in placing the student in an isolation room under all of the conditions described in (2)(b).

(6) IEPs may include the use of aversive treatment procedures only when:

(a) subsequent to a functional behavioral assessment, a series of no less than two written positive behavioral intervention strategies, which were designed to target the behavior to be changed, were previously implemented;

(b) the IEP team includes a person trained and knowledgeable about best practices in the application of positive behavioral interventions, aversive treatment procedures and nonaversive alternatives for de-escalation of behaviors; and

(c) a written behavioral intervention plan using aversive treatment procedures is developed and incorporated as a part of the IEP.

(7) A behavioral intervention plan using aversive treatment procedures shall:

(a) include a statement describing no less than two positive behavioral intervention strategies previously attempted and the results of these interventions, as described in (6)(a);

(b) describe the target behavior(s) that will be consequented with the use of the aversive treatment procedure(s);

(c) include short-term objective(s) with measurable criteria stating the expected change in the target behavior(s);

(d) provide a written description of the aversive treatment procedure(s);

(e) specify a time limit for the use of the aversive treatment procedure for any one instance;

(f) include data collection procedures for recording each application of the aversive treatment(s);

(g) state when the IEP team will meet to review the ongoing use, modification or termination of the aversive procedure;

(h) designate an individual responsible for ongoing review and analysis of the data on the target behavior;

- (i) state how the student's parents will be regularly informed of the progress toward the short-term objectives in the IEP at a frequency no less than is required in 34 CFR 300.347; and
- (j) state whether any standard school disciplinary measures are waived.
- (8) When an aversive treatment plan is incorporated in the IEP, the parents must be informed that their consent to the IEP includes consent for the aversive treatment plan. Failure to obtain consent is subject to due process proceedings under ARM 10.16.3507 through 10.16.3523.

Comment: The above rule is state imposed and not required by IDEA 2004. The rule was adopted, at the request of stakeholders, to ensure the rights of children are protected, and that children are not subjected to aversive procedures as punishment, for the convenience of staff, or as a substitute for positive behavioral interventions.

10.16.3560 SPECIAL EDUCATION RECORDS (1) School records and confidentiality of information must follow the provisions under the Family Educational Rights and Privacy Act (FERPA) and its implementing regulations at 34 CFR, part 99, and must follow the provisions established for special education under IDEA and its implementing regulations at 34 CFR 500.560 ~~610~~ through 500.577 ~~626~~.

Comment: The language in (2) of the above administrative rule is state imposed. The purpose of the language is to ensure a student's special education record contains all of the documentation necessary to demonstrate that the requirements under IDEA have been addressed for the student, and that parental rights have been addressed. The requirement also assists parents in knowing what special education documentation is included in a student's special education record.

(b) If the parents and local educational agency cannot agree on the IEP but can agree on certain IEP services or interim placement, the student's new IEP would be implemented in the areas of agreement and the student's last agreed-upon IEP would remain in effect in the areas of disagreement until the disagreement is resolved.

~~(3) When parental consent for initial evaluation or initial placement is refused, the local educational or public agency shall informally attempt to obtain consent from the parent before requesting an impartial due process hearing under ARM 10.16.3507 through 10.16.3523, to determine if the student may be initially evaluated or initially provided special education and related services without parental consent.~~

~~(a) If the hearing officer upholds the local educational or public agency, the local educational or public agency may initially evaluate or initially provide special education and related services to the student without parental consent subject to the parent's right to bring a civil action.~~

- ~~(d) A parent may revoke consent at any time. If the parent revokes consent, the parent and the local educational agency have the right to due process procedures under ARM 10.16.3507 through 10.16.3523.~~

Comment: The language in (2) of the above administrative rule requires annual parent consent for the IEP. This exceeds the requirements of the final regulations under IDEA 2004 which requires parent consent only for initial placement. Montana has a long-standing history of valuing parent involvement in their child's educational program as demonstrated by this administrative rule. It is felt that this requirement has had a positive impact on children's educational programs and outcomes.
